

FACT SHEET **AbActive**
 45 Billion cfu probiotic B. coagulans
 (lactobacillus sporogenes)

DESCRIPTION

A probiotic to assist in restoration of natural intestinal flora, which can lead to a more rapid recovery and better nutrient absorption.

Probiotics can be beneficial for horses that have experienced health issues, (ie. colic), or undergone a course of antibiotics. The probiotic restores the majority of natural lactic acid bacteria, which means food is more efficiently digested.

HOW MANY DO I NEED?

Recommended Control Program
 ONE SACHET per 350kg (770lb), administered as a single dose per day ongoing.

OVERDOSAGE

Should a massive overdose occur, treat symptomatically and supportively

SIDE EFFECTS

Probiotics occur naturally in the digestive system and treatment has no known side effects.

WARNINGS

- Keep out of reach of children.
- Veterinary use only.

COMPOSITION

Each 3g sachet of enteric-coated granules contains 45 Billion cfu probiotic B. coagulans (lactobacillus sporogenes).

EXAMPLE DOSAGE CALCULATOR

Treatment Regime

Horse's Weight	Dosage Calculation
500kg (1210lbs)	1.4 sachets (1 measure for every 350kg/770lbs of bodyweight)
